Optional Extra  
SOFT1026

OEM Branding Available  
call for details!

**FREE! VOXPlayer Lite Widget**

Allows manual control of a VoiceOFF over a Network. Simply select a message and play with the click of a mouse.

FREE with every VoiceOFF (VOX400)  
SOFT1025

**Talk-Back**

Customers with an appropriate DVR can achieve Talk-Back by connecting the DVR's line output to the VoiceOFF's line input. Two way talk would need a microphone into the DVR as well.

**Relay Output**

Energised via an alarm, RS485 or network trigger.

**Extension Speaker**

Add an extra speaker to extend the range of each main unit.
